21 January 2014

Dear Mr Gray,

Wesfarmers Curragh Pty Ltd (WCPL) submission in response to Aurizon Network's response to industry (UT4)

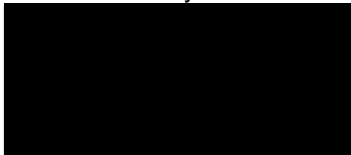

WCPL welcomes the opportunity to comment on Aurizon Network's (**AN**) response to industry submissions dated 29 November 2013 (**Response to Industry**) in relation to the proposed Access Undertaking (**UT4**).

WCPL has had significant input into the new submission made by the Queensland Resources Council (**QRC**) dated 20 January 2014 and supports and endorses the entirety of that submission. Accordingly, WCPL recommends that the QCA reject UT4 for the reasons set out in the original QRC submission and also the recent new submission.

WCPL would like to reiterate that it is its preference that, in rejecting UT4, the QCA provides drafting for the undertaking that the QCA would be in a position to approve. This will assist in ensuring that the published QCA timelines for resolution of UT4 are achievable.

WCPL confirms that this submission may be made publically available.

Yours sincerely

Ben Pentelow
Manager Coal Sales and Infrastructure
