Brisbane

I am an old age pensioner 80 yrs of age. I have lived in MILARCOM all my life. I have worked for Councils - Main Roads & various other jobs. I may be old but I'm not silly.

I cannot understand why supposedly educated people in government positions should think it necessary to increase our water rates by over 1300% - only in MILARCOM. Why? Is there something you are not telling us? Is this a sneaky attempt to get rid of us cheaply? If so - I hope your consciences bother you when you try to sleep at night.

W. Kropke
