I believe MT LARCOM water is to rise like a T SUMANI.

CAN you please justify the rise from \$263.91 FOR 375 KL TO \$4,011.66 FOR 375 KL of water.

This stupidity will wipe out MT Larcom are we the residents going to be compensated in the hundreds of millions of \$ \$ \$ (\$ think not).

If the residents of MT Larcom wish to be treated as children we would go to Mr Donald's at least he dresses for the part. Queensland Cement paid for the pipeline from Larcom.

What is the hidden agenda? What deals have been made?

I have a Tank and can put more in.

The statement I enjoyed the most was

"WE ARE CERTAINLY NOT EXTRAVAGANTLY EXPENSIVE." WHAT A JOKE.
