Aurizon Network Pty Ltd – FY2018 Revenue Adjustment Amounts revised submission

27 November 2018

Dear George,

On 28 September 2018 Aurizon Network submitted to the Queensland Competition Authority (QCA) its FY2018 Revenue Adjustment Amounts Submission (FY2018 Revenue Cap Submission) a net amount of \$0.5 million being returned to Access Holders.

The Revenue Adjustment Amounts included \$1.4 million of costs associated with Aurizon Network's Ground Penetrating Radar (GPR) works in accordance with clause 4.3(c)(v) of Aurizon Network's 2016 Access Undertaking.

We are now amending our FY2018 Revenue Cap Submission to amend the GPR costs to an amount of \$1.2m per the QCA's Revenue Adjustment Amounts draft decision dated 15 November 2018.

We attach a revised FY2018 Revenue Cap Submission (clean and mark up). We note that the only change to this submission, relative to the original, is the amendment of the GPR costs. This results in a proposed net return to Access Holders of \$0.7 million.

Please contact me on telephone (07) 3019 9507 or by email, donna.bowman@aurizon.com.au should you have any queries regarding the submission.

Yours sincerely

Donna Bowman
Manager Network Regulation (Access Undertaking)
