Scheme: Lower Fitzroy Water Supply Scheme

Date: 31 March 2011

Scheme Specific Issues

- This scheme has been established primarily to provide water to Stanwell Corporation and not irrigators. Irrigators have been provided with very modest water supply over the years as a result.
- The exclusive Part A tariff is unfair as charges apply even if there is no water is made available. A more equitable tariff structure should be considered.
- Irrigators questioned the prudence of proposed renewals expenditure as they do not derive a benefit from the scheme.
- Irrigators are unaware that the Irrigator Advisory Committee exists and question whether it has ever met.
