GLOSSARY	1
EXECUTIVE SUMMARY	24
<b>1. BACKGROUND</b>	<b>33</b>
Key Aspects	33
1.1 Introduction	34
1.2 Queensland Rail	34
1.3 Declaration of QR's infrastructure	34
1.4 QR's Draft Undertaking	35
1.5 Assessment process for approval of Undertaking	35
1.6 Undertaking – Role	37
1.7 Undertaking – Content	39
1.8 Undertaking – Approval	39
<b>2. SCOPE &amp; ADMINISTRATION</b>	<b>48</b>
Key Aspects	48
2.1 Introduction	49
2.2 Coverage of declared services	49
2.3 Rail infrastructure on privately-owned land	51
2.4 Term of QR's Undertaking	52
2.5 Review of the Undertaking	53
2.6 Transitional arrangements	53
2.7 Public reporting of QR's compliance with the Undertaking	54
<b>3. RING-FENCING ARRANGEMENTS</b>	<b>57</b>
Key Aspects	57
3.1 Introduction	58
3.2 Organisational structure	58
3.3 Ring-fencing Guidelines	62
3.4 Protection of confidential information	64
3.5 Breaches of Ring-fencing Guidelines	87
3.6 Auditing of QR's compliance with the Ring-fencing Guidelines	94
3.7 Internal access agreements	97

<b>4. NEGOTIATION FRAMEWORK</b>	<b>103</b>
Key Aspects	103
4.1 Introduction	104
4.2 Management responsibility for QR's infrastructure	104
4.3 Assignment of management responsibility for stations and platforms	111
4.4 Access seekers' right to sign access agreements with QR	113
4.5 Discretion to refuse to negotiate – prudential requirements	115
4.6 Access application process	118
4.7 Dispute resolution	123
<b>5. PRICING PRINCIPLES</b>	<b>125</b>
Key Aspects	125
5.1 Introduction	126
5.2 Pricing Objectives	126
5.3 Pricing Limits	137
5.4 Reference tariffs	140
5.5 Cost allocation	143
5.6 Performance regime	151
<b>6. CAPACITY MANAGEMENT</b>	<b>163</b>
Key Aspects	163
6.1 Introduction	164
6.2 Scheduling and train control framework	164
6.3 Train scheduling practice	166
6.4 Train priority	177
6.5 Public availability of capacity information	181
6.6 Capacity allocation process	186
6.7 Resumption of capacity rights	189
6.8 Capacity transfer procedures	202
<b>7. INTERFACE CONSIDERATIONS</b>	<b>212</b>
Key Aspects	212
7.1 Introduction	213
7.2 Establishment of rollingstock interface standards	220
7.3 Appropriateness of QR's role in authorising rollingstock	227
7.4 Appropriateness of QR's right to suspend the use of a third-party operator's rollingstock	231
7.5 Preparation of joint safety risk assessment by QR and a third-party operator	235
7.6 Appropriateness of QR providing assistance to prospective third-party operators to fulfil the Draft Undertaking's rollingstock and safety requirements	239
7.7 Annual audits of third-party operators' compliance with the rollingstock interface standards and safety management systems	241

7.8	Appropriate allocation of QR's and third-party operators' responsibilities under the EPA Act	246
7.9	Reasonableness of QR's environmental requirements	247
7.10	QR's assistance to prospective third-party operators concerning the Draft Undertaking's environmental requirements	264
7.11	Treatment of issues relating to adjoining infrastructure	266
<b>8.</b>	<b>SCHEDULE E – SUMMARY OF STANDARD ACCESS AGREEMENT</b>	<b>270</b>
	Key Aspects	270
8.1	Introduction	271
8.2	QCA's proposed Schedule E principles	271
8.3	Amendments to QCA's proposed Schedule E principles	274
8.4	QCA's final version of Schedule E	296
<b>9.</b>	<b>REFERENCE TARIFF SUMMARY</b>	<b>306</b>
	Key Aspects	306
9.1	Introduction	307
9.2	QR's proposed reference tariffs	307
9.3	Reference tariff determination	307
9.4	Demand forecasts	314
9.5	Assessment of stand-alone cost	315
9.6	Asset valuation	315
9.7	Rate of return	316
<b>10.</b>	<b>REFERENCE TRAIN SERVICE</b>	<b>317</b>
	Key Aspects	317
10.1	Introduction	318
10.2	Basis for choosing the reference train service	318
10.3	Structure of reference tariffs	320
10.4	Specification of the reference train service	332
10.5	The geographic scope of reference train service	336
10.6	Assigning new mines to clusters and deleting mines from existing clusters	339
<b>11.</b>	<b>DEMAND FORECASTS</b>	<b>342</b>
	Key Aspects	342
11.1	Introduction	343
11.2	Forecast traffic volumes	343
<b>12.</b>	<b>STAND-ALONE COSTS</b>	<b>348</b>
	Key Aspects	348
12.1	Introduction	349
12.2	Estimation of stand-alone costs	350

<b>13.ASSET VALUATION &amp; DEPRECIATION</b>	<b>363</b>
Key Aspects	363
13.1 Introduction	364
13.2 Asset valuation approach	364
13.3 Determination of the replacement cost of assets	368
13.4 Unit rates and quantities	371
13.5 Depreciation method for below-rail infrastructure	372
13.6 Determination of asset lives for below-rail infrastructure	375
13.7 Optimisation of below-rail infrastructure	376
<b>14.CONTRIBUTED ASSETS</b>	<b>378</b>
Key Aspects	378
14.1 Introduction	379
14.2 Recognition of contributed assets	379
14.3 Quantifying the extent of recognition of past contributions	381
<b>15.RATE OF RETURN</b>	<b>383</b>
Key Aspects	383
15.1 Introduction	384
15.2 The method to estimate the allowed rate of return	384
15.3 Segment-specific or QR-wide rate of return	385
15.4 Key parameters in the WACC / CAPM derivation	386
<b>16.INCENTIVE REGULATION</b>	<b>399</b>
Key Aspects	399
16.1 Introduction	400
16.2 Type of regulatory framework to be applied to QR's reference tariffs	401
16.3 Price inflator for reference tariffs	405
16.4 Derivation and calculation of the X-factor	406
16.5 Sharing of efficiency gains	408
16.6 Triggers for the review of reference tariffs	409
