

## REGISTER OF BREACHES BY ENERGY BUSINESSES

The QCA enforces the Electricity Distribution Network Code, the Gas Distribution Network Code, and some Queensland-specific derogations to the National Energy Retail Law and National Energy Retail Rules. The tables below summarise the breaches that the QCA is currently investigating and/or where it is monitoring the reimbursement of affected customers, as well as the investigations the QCA has completed over time, and what enforcement action it has taken.

### Current investigations

Investigation	Time of breach	Number of affected customers	Amount	Enforcement action
<b>Ergon Retail notified prices (2022)</b> Ergon Energy Retail charged standard retail contract customers on tariffs 12B and 22B prices that were different from the notified prices for those tariffs.	July to November 2021	14 residential customers 111 small business customers	\$1,647 overcharged \$6,897 undercharged	Administrative resolution
<b>Origin Energy payment and billing fees (2021)</b> Origin Energy charged standing offer customers paper bill fees and payment processing fees (for cards and payments at Australia Post).
