Submission on QCA draft solar feed-in tariff determination 2025-26

Date: 26 May 2025

I'm disgusted by the proposed 30% decrease in solar feed in tariff at a time where families are struggling to put food on the table Ergon are clearing \$80m in annual profit. I urge QCA to revisit this proposed decrease in solar feed in tariff to support Australians who are doing it tough. Ergon is a monopoly in regional north QLD and the lack of competition leaves us helpless and dependent on QCA enforcing decisions that support h community
