Aurizon Network – FY20 Cross system Voting Draft Amending Access Undertaking

24 September 2020

Dear Charles,

With reference to the Draft Amending Access Undertaking (DAAU) submitted by Aurizon Network on the 4th September 2020, Jellinbah Group wish to indicate our support of the proposed changes to the definition of End User Voting Rights (Coal System) and End User Voting Rights (Network) to account for Cross System Train Services (cl. 12.1).

As a cross system Producer who is currently affected by the exclusion of End User Voting Rights, we support the proposed correction to the definition.

Please accept this letter as a submission on the DAAU and we would welcome any participation as part of the consultation process by the QCA on this matter.

Regards

Mr Greg Chalmers
Chief Executive Officer
Jellinbah Resources Pty Ltd
